- Nancy Burnell, Meter Dept Supervisor, Admin No Report Submitted

Old Business

Mrs. DeRosier stated that at last month’s meeting, Mrs. Burnell reported on the progress at My Brothers Pub located at 1542 Haines Road. In her report she stated that the meter pit has been lowered. The meter was then tested to insure accuracy. On the low flows the water measured less than actually used. Mrs. Burnell contacted Mr. Sannelli with the above results, however, Mr. Sanelli did not agree, but felt there was nothing else that could be done.

Mrs. DeRosier stated she was not sure what Mr. Sannelli was questioning. Mr. Armstrong stated that when a customer calls disputing their bill, they insist on a new meter. When the meter is replaced, their water bill goes up because the new meter is measuring more accurately. On the old meters, with deposits, etc, tend to slow down the metering, therefore they do not register the correct water flow.
Dale Frazier - Levittown GOAL

Mr. Armstrong stated that last month Dale Frazier from Levittown GOAL attended our meeting with a power point presentation. There were several clean-ups scheduled one being on/near the Authority’s property in Birch Valley. Due to a snafu, they ended up not going on our property, however, they were able to clean up around the property and the surrounding area. Just from that area alone they collected almost a 40 cubic yard dumpster of debris and approximately five (5) or six (6) yards of recyclables. A resident of Birch Valley commented that for the first time they are able to tell which way the water flows in the creek.

Mrs. Keyser informed the Board that she sent a letter on behalf of the Board to Mr. Frazier, supporting the efforts of Levittown GOAL.
