TECHNICAL SPECIFICATIONS
SECTION 1 - GENERAL

1.1 SUMMARY OF WORK

Furnish materials, equipment, transportation, labor, and supervision, required to supply and deliver technical grade liquid ferric chloride (chemical) for two (2) years as specified herein to Lower Bucks County Joint Municipal Authority's (Authority) Water Treatment Plant. Ferric Chloride (liquid form) shall be delivered in truckload lots unless otherwise specified. It shall be the responsibility of the chemical supplier to proceed with the work in the manner and within such limitations as may be prescribed by the Engineer. Work also includes inspection of the Authority's ferric chloride storage tank and cleaning at least once a year or as specified in this contract document and disposal of material removed from the tank at least once a year or as specified in this contract document. The Authority reserves the right to extend the contract period for an additional one (1) year upon written agreement by both parties.
